

**P.A SYSTEM**

The System will provide a clear and undistorted sound in all the area. Spectrum from 30Hz to 20KHz.

The sub-loudspeakers are important in the mix of Lazuli, please don't undervalue them. Dont forget the FRONT-FILLS if necessary because we don't use amplifiers on stage...

**FRONT OF HOUSE**

**In general we carry our own digital console and stage-box (soundcraft SI impact)**

We need a CAT5 cable ready to use from FOH to the back center of the stage

The mixing console will be set at the center of the audience and please not in a cabin nor under a balcony !

**STAGE**

We have machines and computers on stage, please be careful about the quality of the electricity!

On stage we will need electric 240V with European power-plug there . we need 4 Talls and 2 small microphone stands.

**We provide the microphones ,cables and our mixing desk which manages our ear monitors. (only)**

**We don't need monitors. So the stage will be emptied as best as you can.**

We bring the splitter-snake for our monitor mixing desk. Please save us some space in backstage to prepare (5 meters x 3 meters minimum).

**TIMING**

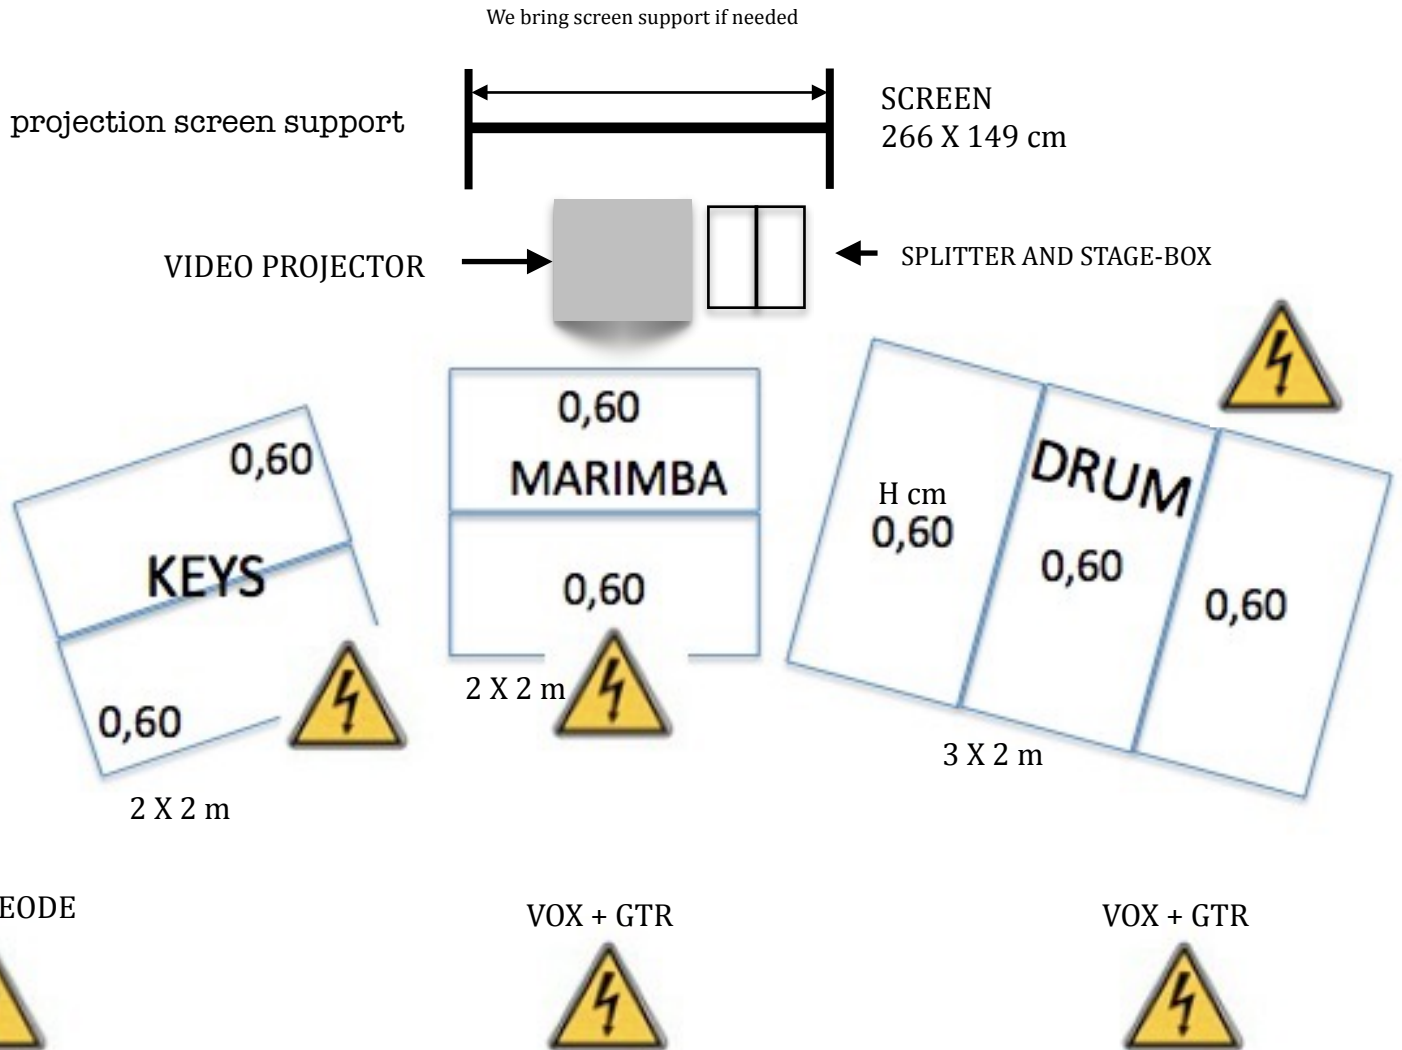

FOH check, many machines and instruments set up,

cabling .....1H00

Soundcheck .....  
...1H00

In Festival, changeover before the show 30 min, and 15 min after.

**Keyboards , marimba and drum could be in a same linear riser : 7x2m mini**

**SOUND CONTACT**
